"Is it Jordan's stormy banks, mother. Where she is to be carried?" "Shut up, shut up, you little brat -She's going to be married!"

Fate of the Apostles. The following brief history of the fates of the Apostles may be new to those whose reading has not been so evangelical as to know that:

St. Matthew is supposed to have suftered martyrlom, or was slain with a sword at the city of Ethiopa. St. Mark was drug ad through the dy streets of Alexandria, in Egypt, till he

expired. St. Luke was hanged upon an olive tree in Greece. St. John was put into a cauldron of

boiling oil, in Rome, and escaped death! He afterwards died a natural death at Ephesus, in Asia. St. James the Great was beheadel at

Jerusalem. St James the Less was thrown from a pinnacle or wing of the temple, and then beaten with a fuller's club. St. Phillip was hanged against a pil-

lar at Hierapolis, a city in Phrygia. St. Bartholomew was flayed alive by the command of a barbarous king. St. Andrew was bound to a cross, where he preached to the people till he

expired. St. Thomas was run through the body with a lance at Coromandel, in the East Indies.

St. Jule was shot to death with ar-St. Simon Zelotes was crucified in Persia.

St. Matthias was stoned to death by the Jews at Salania. St. Paul was beheaded at Rome by the tyrant Nero.

The Hospitable Man.

If people in this world were also as careful in computing the interest which is returned to them for the expenditure of love and good feeling, as they are in calculating their per centage for the outlay of money, we think there would be a great many more capitalists in the field of benevolence than there are at present. In the sphere of barter and exchange, we know that it is absolutely necessary that this one pursuit should absorb every faculty of the sou', that all the higher and nobler pursuits of tion-Call and try them. life should be neglected or forgotten.

We should look upon wealth more as a means than an end, and consider the treasures we gather as means loaned to us for the good we can accomplish with them. We regret to say that the acquibenevolense with the impulses, is apt to contract the heart and make people selfish. Their appetite, like that of Oliver Twist's, continually cries for more, until at length it becomes too insatiable to be satisfied at all.

How much better the prudent and rational enjoyment of your means as you following. pass along the railroad of life, than that snivelling economy which leads men to lock up in their coffers every farthing they make, in the vain hope of enjoying its results when they have accumulated FIVE tierces fresh Rice in store and for sale by enough to retire! Foolish thought; such men will never have enough! and Death calls upon them whilst they are still FIFTY boxes extra palm soap; feasting their eyes upon the gold they for sale by have gathered, -N. O. Delta.

Poor Belivery.

A waggish fellow, somewhat troubled with an imp diment in his speech, whose quibs and quibbles have been relished by many of us while one day sitting at a public table, had occasion to use a pepper-box. After sheking it with all due vehemence, and turning it in various ways, he found that the crushed pepper corns were in nowise inclined to come forth. "T-th this p-pe-pepper-box," he exclaimed, with a facetious grin, "is so-somewhat like myself." "Why so?" interrogated a neighbor. "P-poo-poor delivery," was the reply.

To P.eserve Eggs.

The way to preserve eggs through sum-meror winter, a simply this: Dip them in boiling water for the space of five or six seconds, then wipe them dry, and they will keep good and fresh from year to the other. The water shuts the pures of the shell, and consequently keeps the air from the egg. which is all that spoils them. I have heard of varnishing, and packing in salt and various other meth-ods, but the above I believe to be the best and cheapest.

Fellers' Vermifuge is the best in use.—Heer

Licking Station, Kv., Dic. 17, 1845.

Ma. R. E. Selleas:—I have the pleasure to inform you, that I have used, in my practice, your celebrated Vermitings with the most happy results. I have formerly used Fahneslock's, but being persuaded to try yours. I have found it far suprelor in every respect, and can say, without the fear of contradiction, that your Vermitinge possesses more written than any I over used, and most cordially recommend it to the attention of the public. I will state a case where I gave one vial of your Vermitinge. My brothers child was pining and wasting to a mere skelcton. In 36 hours after I gave the Vermitinge, the enormous quantity of upwards of six hundred worms were passed. The child, that was given up far lost, is now as well as any in the resultbarboad.

AMBROSE ARNETT, M. D. Sellers' Vermifuge the best in the World. Garring the theory April 1, 1815

This certifies that I have ke pt on hand, and used in my practice, R. E. Milets' Verminge, for the two past years. I am confident in saying it has not failed, in a sing editstance, to re-lieve children and adults troubled with worms; in mony in ances is has brought away large

quantities. I am consident it is the best worm medicine in use. All that is required to give it reputation in any family, is to give it a fair trial. R. H. WILSON, M. D. Point Pleasant, Va., Oct. 4, 1847.

Mr. R. E. Selleasi, +Or your Verminge, I can say without hesitation that having used it evensively in my practice for the last four or five years, I think it decidedly the best preparation of the kind of which I have any knowledge atthough I have heretofore used the preparation of several other man facturers.

Very respectfully.

Yours, respectfully.
